The first graduation of St. Patrick's school was held Monday night, six students, Miss Helen Tobin, Miss Helen Rowley, Miss Grace Parle, Harold Ryan, Thomas Merrigan and George Gorman completing the high school course. ## WILL BE BUMPER CORN CROP.

Nodaway Farms Look Fine, Says Maryville Man—Hay is Short.

Prof. B. F. Duncan has just completed a trip that extended over the larger part of Nodaway county, and he says that there is a splendid outlook for good crops of nearly all kinds this year.

The corn will make a bumper crop, he thinks, unless something happens to it later in the season. All over the county it looks fine. It is growing well, has a good color, is clean and the ground is in excellent shape.

The oats are a little short, but may grow yet. Alfalfa is in good condition and should make two or three more crops this season. Hay is the only thing that will be a failure this year. It is too short to make a good yield.

## Visiting Brother's Family.

Mr. and Mrs. I. H. Selecman of Cosby, Mo., arrived in Maryville Sunday to spend a few days visiting Mr. Selecman's brother, S. G. Selecman, and family.

## CLYDE LINCOLN DIES.

Hopkins Man Succumbs to Tuberculosis After Long Illness—Funeral Wednesday.

Clyde Lincoln of Hopkins, son of Henry Lincoln, died at 2 o'clock Monday afternoon at the home of his father-in-law, John Brown, after a long illness of tuberculosis. The burial will take place in the Hopkins cemetery at 1 o'clock Wednesday afternoon, June 17.

Mr. Lincoln was born on a farm near Hopkins twenty-four years ago and lived in Hopkins most of his life. He lived in Bolckow a short time and then spent one year in New Mexico, where he went for his health, returning much improved.

In March, 1913, Mr. Lincoln was married to Miss Ethel Brown, who was then teaching in the country schools near Hopkins. Because of Mr. Lincoln's poor health they made their home with her father. Mr. Lincoln gradually grew worse until his death Monday.

The funeral services will be conducted by Rev. Leslie Cobb of Bedford, Ia., a personal friend of Mr. Lincoln.

Mr. Lincoln leaves his wife, father, a sister, Mrs. William Wallace, and a brother, Rex, of Hopkins, and a brother, Glen, of Bolckow.

## COBURNS PLEASE LARGE CROWDS

Plays Given Indoors, But Clever Acting Repaid Audience That Nearly Filled the Auditorium.

Bad weather made it necessary for the Coburn Players to give their performances of Shakespeare's "Taming of the Shrew" and "Merchant of Venice" yesterday afternoon and night in the auditorium of the Normal school. Although that fact undoubtedly took some of the attractiveness away from the performances, nevertheless the players pleased their audiences.

Some admirable bits of acting were seen in both the afternoon and evening performances. Mr. and Mrs. Coburn in the leading parts portrayed the characters of Petruchio and Katharina in "The Taming of the Shrew," and Shylock and Portia in "The Merchant of Venice" sympathetically and understandingly. They were well supported by their entire cast, a very well-balanced company. The work of John C. Hickey as Launcelet Gobbo, a servant to Shylock, was a clever bit of comedy well done.

The attendance at the plays has been larger even than the management expected and is an encouragement toward bringing more things of that character here. At each performance the Normal auditorium was two-thirds full, and the receipts will more than cover the guarantee necessary to bring the Coburns here.

## FAYORS FRONT PORCH VACATIONS

Kansas City Minister Thinks It Better to Read and Rest at Home Than to "Do" Summer Resorts.

Summer, which comes once a year and brings with it hot weather and vacation time, is here. Many persons are away on their vacations now and many more will go before the summer is over. Some will have a pleasant and restful time, and others, many know from experience, will leave the strain of business only to rush around from place to place in a nerve racking hurry and return as tired, if not more so, than when they started. A vacation of this kind is no vacation at all.

Rev. Burris A. Jenkins, pastor of the Linwood Boulevard Christian church, recently preached a sermon on the subject "Seeking Rest," which dealt with the vacation problem. In it he advocated the front porch vacation as the best kind to take in many instances.

It is not necessary to take a trip to Europe, India or South Africa to know foreign lands. Neither is it necessary to go to the pleasure resorts of the north or east to have a summer vacation. Just stay at home in the hammock on the front porch and, with a properly cultivated imagination, one can go anywhere and see everything.

This is the gist of Rev. Mr. Jenkins' sermon.

"Emerson rarely left his home," Dr. Jenkins said, "and yet he traveled all over the world. We may all do the same. From our cozy front porches we may go to far away India, revered Jerusalem, to the historic Valley of the Nile or the refreshing vineyards of southern France. We may visit all of these places and return, not tired in body, but refreshed in body and soul."

## Huttons to Kearney.

Mr. and Mrs. W. J. Hutton and son and daughter, Clyde and Nellie, left Sunday for Kearney, Neb., to make their home. They were accompanied by Mrs. Hutton's mother, Mrs. Alldridge, who makes her home with the Hutton family.

Those who did not take the entire examination are expecting to get their certificates after the close of the summer term of the Normal school, where they are working for approved grades in the subjects they did not write on.

Water is High in White Cloud Creek—Precipitation is Not General.

More heavy rains fell in parts of Nodaway county yesterday. Southwest of Maryville a very heavy rain fell, one that filled White Cloud creek nearly bank full. Another heavy rain fell at Pickering, but did not extend far north of there. Bedison and Barnard also report big rains. Lighter ones fell in other parts of the county.

## Improving the Dirt Roads.

In spite of the fact that you sometimes hear it said "The money spent on the dirt roads is wasted," the truth remains that in Nodaway and every other county the condition of the dirt roads is steadily improving, compared to a few years ago.

This paper has given much space to boosting for better roads and the driving over the roads of this county brings a feeling of pleasure to see the advancement of good roads and good roads sentiment. Let us do our part well, every one of us, this year toward better roads.

Harold VanSteenbergh, and she will this season—the date is not yet set, but it is expected soon after corn plowing and harvesting are well over. Nodaway county can be depended on to do its full duty.

## WANTS PRELIMINARY

Trouble Had Been Brewing for Several Days—Touhy Gets an Ugly Scalp Wound.

John Touhy, who drives the street flusher for F. G. Shoemaker, was filling the tank with water yesterday afternoon at a hydrant near the southeast corner of the square, when Levi Kelly, coming out of a saloon, saw him. Kelly picked up a brick and threw it at Touhy, striking him in the head and cutting an ugly wound in his scalp.

This morning the state filed information against Kelly on a charge of assault against Touhy. Kelly is now in the county jail awaiting a preliminary hearing which will be given him in Justice Johnson's court.

The two men work for the Shoemaker-Bovard Transfer company. They had been quarreling for several days about their work and the trouble was getting worse. Yesterday Kelly got drunk and when he saw Touhy filling the water wagon, without saying anything to him or being provoked in any way by Touhy, he picked up a brick and threw it at the other man.

Touhy's injury does not at present seem to be serious, and today he is up and walking around.

Sometimes washday will tire a woman so that she doesn't feel well all the week, and then, just as she is getting rested up, washday is around again. Besides, there is all the cleaning—floors to scrub, bathtubs and basins to clean, dishes to wash after every meal—it's no wonder women feel dragged out!

Fels-Naptha Soap gives women a chance to do their work in the easy way, to get it done before midday and to rest in the afternoon. Fels-Naptha Soap does your work in cool or lukewarm water.

Chicago, June 16.—Nominations, headed by Mrs. Percy V. Pennybacker of Austin, Tex., for reelection as president, and which in the absence of nominations from the floor are equivalent to election, were made by delegates to the convention of the General Federation of Women's Clubs.

Governor Stewart of Montana Explains Inquiry to Washington.

Butte, Mont., June 16.—Governor S. V. Stewart took up with Washington the possibility of securing federal troops in case they are needed in connection with the trouble now existing in the Butte local of the Western Federation of Miners.

The first news to this effect came from Washington and surprised most of those who heard it, because it followed a quiet day. The insurgent faction of the miners went to work, as did the conservatives, without being asked, as is customary, to show their union cards to the union officials.

The governor who vigorously denied a report that he had ordered the militia mobilized, also denied a report that he had actually appealed for troops, explaining that his inquiry was as to their availability in case a contingency should arise.

#### Theater Headaches.

The most frequent cause of headaches occurring during or after the theater is eye strain. People who use the full energy of the delicate eye muscles to obtain perfect vision, are often unconscious of this strain. In the theater the continuous effort to keep everything constantly focused exhausts the nerve centers and headache results. The practice of seating the audience in total darkness while they are staring into an intensely lighted stage is another serious factor. The pupils being widely dilated in the dark, admit the excess of light from the stage, often producing irritation of the eyes which lasts sometimes for

days. Those subject to headaches should never sit where it is necessary to raise the eyes to watch the stage. This unnatural position of the eyes is very tiresome even to those who never have trouble at other times. Unfortunately the theater going public has not insisted on proper ventilation without drafts. The overheated foul air of itself lessens the spectator's vitality and power of endurance. This, followed by drafts, frequently produces stuffing up of the nose, or cold in the head and a disagreeable headache from internal pressure, which is usually worse the following morning.

## CRISIS REACHED IN MEDIATION

Carranza Delegates to Be Accepted Only if Armistice Declared.

### FACTIONS MUST STOP FIGHTING

No Provisional Government Can Be Established Which Does Not Recognize Constitutionalists, American Delegates Believe.

Washington, June 16.—Administration officials had no hesitancy in admitting there was a crisis in the Mexican mediation conference at Niagara Falls over the selection of men to represent the proposed provisional government to succeed the Huerta regime. While admitting the crisis, administration officers, however, seemed confident that conditions presented would be met and that hope for peace in Mexico was by no means abandoned.

Word came from Niagara Falls that the South American mediators had replied to the recent note from General Carranza, chief of the Mexican Constitutionalists, stating that his offer to send the delegates to the peace conference would be accepted only on the condition that he agree to cease hostilities against the Huerta government. That Carranza would not consent to such a condition had been repeatedly asserted by him. This development, therefore, caused no change in the diplomatic situation insofar as the United States was concerned.

It was stated in official quarters that the United States had been proceeding in its dealings with the mediators at Niagara Falls on the basis that there would be no solution of the Mexican problem unless the warring factions there could be brought to terms.

Developments in the Mexican international conflict during the last few months, it was pointed out, made it apparent that the Huerta government could not survive irrespective of mediation and that there could be no provisional government worthy of the name which did not recognize the revolutionists.

### NEW ROAD INCORPORATED

Southwestern Pacific Will Cost Hundred Millions.

Sacramento, Cal., June 16.—Articles of incorporation for the Southwestern Pacific railroad, which capitalists propose to build from Denver, Colo., to San Diego, Cal., were filed with Secretary of State Jordan. The capitalization of the company was given as \$2,000,000.

Colonel D. C. Collier of San Diego, president of the company, said the railroad would cost approximately \$105,000,000 for its 2,200 miles of track.

The main line between Denver and San Diego will total 1,021 miles, passing through the states of Colorado, Utah, Arizona, Nevada and California. A branch will run from Denver to Salt Lake, with several others spreading the territory to reach mining districts.

Colonel Collier said \$310,000 of the capital had been paid in. Most of the backers of the road are Chicago men.

### SAY WAR IS INEVITABLE

Turkey Has Not Yet Replied to Greek Note.

London, June 16.—The Turkish government has not yet replied to the Greek note demanding the cessation of the persecution of the Greeks in Turkey and reparation for the injury caused to them and their interests, and it is expected that Turkey will ignore the demand or refuse to comply with it.

The tension of the two countries is high, and although the powers are busying themselves diplomatically to prevent war, they continued to display their customary inability to arrive at any agreement where the Balkans are concerned.

According to the general feeling expressed in Athens, war with Turkey is inevitable.

### Rebel Generals Reported Killed.

Mexico City, June 16.—General Barron, in his official report of the battle at Zacatecas, says that after an eight day battle the Constitutionalists were repulsed and were pursued by him and by General Argumedo. Juan Cabral, a Constitutional chief, the federal commander says, was captured by the government forces and immediately put to death. The Constitutional leaders, Caloca and Triana, also were killed and General Panfilo Natera, the commander of the attacking force, was seriously wounded.

### U. S. Will Answer Japan's Note.

Washington, June 16.—After a lapse of ten months the United States is about to reply to Japan's last note on the California anti-alien land law. Secretary Bryan said: "The note of Aug. 16 last will be answered as soon as the matter can be reached. Answer to it was suspended by the discussion of other means of adjusting the differences."

### Stevenson's Funeral Arrangements.

Bloomington, Ill., June 16.—The funeral of former Vice President Adlai E. Stevenson will be held at 3 p. m. tomorrow at the Second Presbyterian church. The body will lie in state in the rotunda of the court house from 1 to 3 o'clock. All business will be suspended.

### A REST DAY HELPS NERVES.

Experiments Show That Change of Work Restores System and Makes for Efficiency.

The refreshing influence of the weekly "day of rest" on a person subjected to the strenuous routine of a busy life is a feature which he himself can duly appreciate in the effects on his "feelings" and "spirits."

The efficiency of the working man, the length of the working day, the interjection of pauses for rest in the schedule of labor for persons of different ages and stations in life—questions of this sort are constantly arising for solution on a scientific basis. Not only in the field of manual labor, but also in the case of the school child, the office boy, the factory girl, the banker and the merchant, efficiency is the keynote of the times. Fatigue is the enemy of efficiency; and to detect and compensate for or overcome it, is the duty of those concerned with the promotion of human welfare.

In view of this, says the Journal of the American Medical Association, it is of more than passing interest to know that Dr. Martin and some of his associates in the laboratory of physiology at the Harvard medical school, have been making a careful study of the whole question of fatigue and efficiency from a physiological standpoint. A long series of experiments have been made on first-year medical students who were following a regular routine of school work during six days of each week. The routine was interrupted weekly by the Sunday recess, an interval occupied variously by the students, but in no case in precisely the manner of the week days. The daily observations made on these persons during several weeks show that at the beginning of the week the nerve reaction tends to be high, that from then until the end of the week there is a fairly continuous decline, and that following the interruption of the routine by the intervention of Sunday, it returns to the original high point.

The decline is interpreted as a cumulative result of general fatigue incident to routine. What is even more significant, however, is the added fact that a pronounced break in the routine—such as the "day of rest" occasions—may bring about a return of sensitiveness to a high point, or, in other words, it restores the nervous tone. Studies continued in this direction should lead to some useful conclusions regarding the maximum of work, with respect to both its duration and type, that should determine the conditions under which the organism of man may be maintained without depletion.

Mr. and Mrs. A. C. Craven of Ravenwood were shopping in Maryville yesterday.

### HOW FRENCH PEOPLE CURE STOMACH TROUBLE

A household remedy of the French peasantry, consisting of pure vegetable oil, and said to possess wonderful merit in the treatment of stomach, liver and intestinal troubles, has been introduced in this country by George H. Mayr, who for twenty years has been one of the leading down town druggists of Chicago and who himself was cured by its use. So quick and effective is its action that a single dose is usually enough to bring pronounced relief in the most stubborn cases, and many people who have tried it declare they never heard of anything to produce such remarkable results in so short a time. It is known as Mayr's Wonderful Stomach Remedy and can now be had at almost any drug store. It is now sold here by Pearson's Pharmacy and druggists everywhere.
